MEDIA RELEASE

CBH RESOURCES 13TH DECEMBER 2019

CBH to place Endeavor Mine in Care and Maintenance

Following a review of operating strategies at its Endeavor Mine in Cobar, CBH is today announcing that there will be a reduction to its current workforce as the operation is placed into Care and Maintenance. This comes as a result of the depletion of the current known reserve and the time and cost required to obtain access to deeper known resources.

The current workforce of 61 full time CBH employees will be reduced to 4 employees to oversee the operation during the care and maintenance period.

This decision has not been taken lightly. In the coming days we will consult with all our employees and put in place support services to assist people who are affected as a result of these changes.

A further update on the future of Endeavor Operations will be provided in due course.
